UTILISING ADVANCED AND PROVEN METHODS
TO STREAMLINE PROJECT CONTROLS

Our Company

Companies at all stages of the design and construction process will turn to an end-to-end, multi-disciplinary partner to manage risk, add value, drive cost efficiencies and give clients peace of mind.

That is BuiltPath.

We assist our clients throughout the lifecycle of their construction projects, and infrastructural development, helping them assure quality, reduce costs, increase productivity and foster a more responsible, sustainable culture.

Our Values

We value diversity.

We always do the right thing.

With precision, pace and passion.

We own and shape our future.

We create sustainable growth.

Builtpath

Our Mission

For years to come, BuiltPath's story will always be about innovation. In 2016 we began our journey and we founded BuiltPath, a limited liability company.

The foundations and aspirations of our business is rooted truly in innovation and dynamism. Our passion and entrepreneurial culture will ensure that we deliver for our customers safety, quality and value for money assurance – today and in the future.

Our Purpose

Bringing life and true meaning into excellence, safety, value for money and sustainability.

Our Mission

To exceed our customers' expectations with innovative and tailored Project Life Cycle services.

Our Vision

To be the most trusted partner for quality in Built Environment Consultancy.

PROJECT LIFE CYCLE SERVICES

Site Selection

We provide a range of services from geotechnical investigations, due diligence, industrial hygiene, and site surveys, for your building environment.

Design Phase

Our expertise offers engineering, consulting, evaluation and peer review to ensure a blueprint that is well designed for your project.

Construction Project

We offer vital services throughout the construction process including inspection, testing, monitoring, mock-ups and consulting.

Building Maintenance

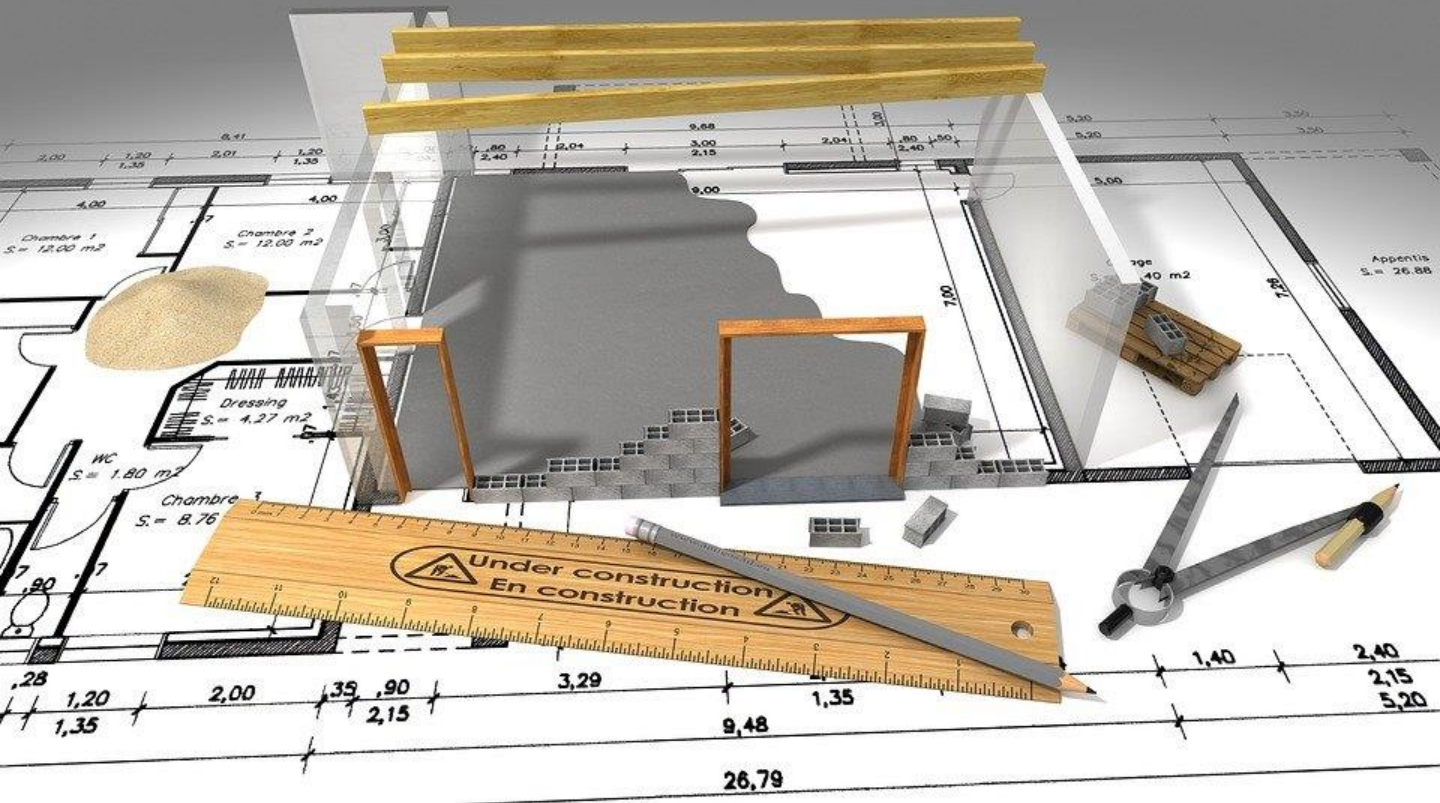

We evaluate the condition of buildings through technical inspections and testing, baseline investigations and remediation plan development.

Decommissioning and Transfer

We expedite and ensure compliance of the transfer of decommissioning of property or building.

PROJECT MANAGEMENT

We assist organisations in doing the right projects - those with strategic alignment that make the best use of your time, talent, and budget - and doing them right.

We utilise process, discipline, and management to break down functional responsibilities, engage stakeholders, and ensure your initiatives are completed within budget, scope, and schedule.

We can manage your project from initiation to completion or anywhere in between. Or if your active project is missing milestones or is lacking momentum, contact us and we will deploy project management consultants to get your project back on track.

Our Expertise

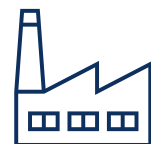

Consultants have extensive experience in:

- Projects for multinational companies
- World Bank funded projects
- Government of Ghana funded projects
- Other privately-funded projects
